CAREER OBJECTIVE

Motivated and possessing a strong foundation in modern web development technologies. Eager to launch a career as a Full Stack Developer, leveraging skills in both front-end and back-end development to contribute to innovative projects. Seeking an opportunity to apply technical skills, learn from seasoned professionals, and grow professionally.

EDUCATION

Bachelor of Engineering – Mechanical Engineering

Akshaya College of Engineering and Technology (2017–2021)

PERSONAL PROJECTS

- **Todo list Application**

Developed a Todo List app using **React.js** and **Bootstrap** for the front end, and **Node.js** with **MongoDB** for the back end. This project demonstrated my ability to create and integrate full stack applications, handling both front-end design and back-end functionality

- **BookMyShow Clone App**

Developed and maintained features for BookMyShow using **React.js**, **Node.js**, **JavaScript**, **HTML**, **CSS**, **Bootstrap**, and **MongoDB**. Focused on improving the booking process, enhancing user experience, and optimizing performance for seamless interactions across all devices.

- **Calculator**

Built a responsive calculator using **HTML**, **CSS**, and **JavaScript**. Features include basic arithmetic operations, a clean interface, and efficient error handling with JavaScript for calculations and dynamic display updates.

CERTIFICATES

- **Full stack Development** Course in KGISL micro college "Pursuing"
- **Introduction to Front-End Developmen-metat**
- **Git for Developers Using Github-Coursera**
- **SQL** Bootcamp-letsUpgrade
